WHAT IS THE COALITION?

The Coalition is an organisation OF disabled people; that is, controlled by disabled people, whose primary objective is to establish a central Resource Centre in the Greater Manchester area to promote the integration of disabled people into society at **all** levels.

WHAT IS OUR PURPOSE?

To co-ordinate activities and resources relating to disability, throughout the area; and to advise and assist where possible with problems that confront disabled people.

To strive for the means whereby disabled people have control over their own lives e.g. in making decisions and arrangements for maximum independence in daily living.

To further the economic, social and environmental integration of disabled people and to promote equality of opportunity.

ORIGINS OF THE COALITION.

By the end of the International Year of Disabled People 1981, some form of co-ordinating group had been established in each of the 10 GMC districts.

During the last 4 years these groups have increasingly shared their expertise and resources. This informal support **of** disabled people, **by** disabled people, eventually culminated in a Conference at County Hall in June 1984, where the steering committee of the GMCDP was nominated. 12 months later at the Inaugural Meeting an Executive Committee was formed consisting of disabled people from all areas of Manchester.
